

APPENDIX A Revision A Company Part Number or NSN	ACCESSORY PRODUCT DATA SHEET CAMSS Shelters CAMSS20TAC32-TC-G	
Specifications as applicable		
Insulated Liner		N/A
Insulated Flooring		N/A
Solar Shade/ Camouflage Netting		The CAMSS20TAC32---TC is our Thermacam™ shelter that attaches to the 20TAC shelter system to reduce the solar load on the shelter and therefor reduce the energy requirements.
Weight (Unpackaged) (lb.)		85lbs
Color in accordance with FED-STD-595		483 Green
Special/Additional Features:		The CAMSS20TAC32---TC Thermacam™ includes specially designed Mil Spec fabric panels that attach to the external frame of the 20TAC shelter system. The panels attach quickly and easily and can be done in minutes to shelters that are already deployed. The panels reduce the solar load on the 20TAC shelter system and create a chimney affect to push the hot air away from the shelter system. The United States Air Force has tested the Thermacam system extensively to prove out the significant energy savings when used in extreme environment conditions.
